FUTURES

Index to Volume 2

No 1 March 1970
No 2 June 1970
No 3 September 1970
No 4 December 1970

Alternative domestic political futures: research needs and research design. *Y. Dror.* 2.4, 302–311

Assumptions about man and society and historical constructs in futures research. *Henry David.* 2.3, 222–230

Case study using forecasting as a decision-making aid. *Selwyn Enzer.* 2.4, 341–362.

Chemical industry—The. *Wm. L. Clinkenbeard and A. Erderly.* 2.1, 59–64

Commission on the year 2000—The. *Daniel Bell.* 2.3, 263–268.

Comparison of Delphi forecasting studies in 1964 and 1969. *Robert H. Ament.* 2.1, 35–44

Complexity—Managing modern. Part 1. *Stafford Beer.* 2.2, 114–122

Complexity—Managing modern. Part 2. *Stafford Beer.* 2.3, 245–257

Computational aspects of cross-impact matrix forecasting—Some. *Howard E. Johnson.* 2.2, 158–162

Creative society—Machines for a. *M. W. Thring.* 2.1, 45–53

Creative methods in technological forecasting. *Hubert Jaoui.* 2.4, 373–374

Crime in the world of 1990. *Leslie T. Wilkins.* 2.3, 203–214

Cross impact analysis—Methodology. Convergence and variability because of random numbers in. *Richard Rochberg.* 2.3, 276–278

Cross impact matrix forecasting—Some computational aspects of. *Howard E. Johnson.* 2.2, 123–131

Decision-making aid—A case study using forecasting as a. *Selwyn Enzer.* 2.4, 341–362

Delphi—A practical approach. *Donald L. Pyke.* 2.2, 143–152

Delphi forecasting studies in 1964 and 1969—Comparison of. *Robert H. Ament.* 2.1, 35–44

Education and practice in 2000—Medical. *John Anderson.* 2.1, 54–58

Employee benefits—Potential changes in. *T. J. Gordon.* 2.2, 158–162

Environment and future research—The. *Gordon Rattray Taylor.* 2.4, 300–301

Environment management, an approach to the dilemmas of the affluent society—Total. *Henry Winthrop.* 2.4, 332–340

Europe 2000, programme and summary of the general prospective view—Plan. 2.2, 163–169

Faith in the technological future. *John Wren-Lewis.* 2.3, 258–262

Forecasting as a decision-making aid—A case study using. *Selwyn Enzer.* 2.4, 341–362

Forecasting as applied to transport—Technological. *G. Bouladon.* 2.1, 15–23

Future of human society—On the. *Johnan Galtung.* 2.2, 132–142

Future oriented society, axioms and methodology—The. *Abraham Moles.* 2.4, 312–326

Future studies as a base for long-range planning in an insurance company. *Berth Jönsson.* 2.2, 153–157

Gaps in the future, the American challenge and the European challenge. *James Robert Huntley.* 2.1, 5–14

Historical constructs in futures research—Assumptions about man and society and. *Henry David.* 2.3, 222–230

Human society—On the future of. *Johan Galtung.* 2.2, 132–142

Insurance company—Future studies as a base for long-range planning in an. *Berth Jönsson.* 2.2, 153–157

Integrated technological forecasting and r and d planning system—An. *Richard N. Foster and Robert H. Rea.* 2.3, 231–244

Kyoto—In the light of. *Comment.* 2.2, 104

Machines for a creative society. *M. W. Thring.* 2.1, 45–53

Managing modern complexity. Part 1. *Stafford Beer.* 2.2, 114–122

Managing modern complexity. Part 2. *Stafford Beer.* 2.3, 245–257

Man and society and historical constructs in futures research—Assumptions about. *Henry David.* 2.3, 222–230

Mankind 2000—The role of the individual. *James Wellesley-Wesley.* 2.3, 202

Medical education and practice in 2000. *John Anderson.* 2.1, 54–58

Methodology. Convergence and variability because of random numbers in cross impact analysis. *Richard Rochberg.* 2.3, 276–278

Methodology for an experimental reflection on society. *Henri Bianchi,* 2.2, 170–171

Pattern of prediction, 1763–1973: The predictive utopia 1871–1914—The. *I. F. Clarke.* 2.1, 65–69

Pattern of prediction, 1763–1973: H. G. Wells, exponent of extrapolation. *I. F. Clarke.* 2.2, 171–175

Pattern of prediction, 1763–1973: H. G. Wells, preacher and prophet. *I. F. Clarke.* 2.3, 269–272

Pattern of prediction, 1763–1973: Methods of prediction, 1918–1939. *I. F. Clarke,* 2.4, 375–379

Political futures, research needs and research design—Alternative domestic. *Yehezkel Dror.* 2.4, 302–311

Pollution—Trends in. *Gordon Rattray Taylor.* 2.2, 105–113

Possible developments in the urban environment. *J. K. Page.* 2.3, 215–221

Potential changes in employee benefits. *T. J. Gordon.* 2.2, 158–162

Practical approach to Delphi—A. *Donald L. Pyke.* 2.2, 143–152

Professions as inhibitors of socio-technical evolution—The. *J. Christopher Jones,* 2.1, 24–34

R and d planning system—An integrated technological forecasting and. *Richard N. Foster and Robert H. Rea.* 2.3, 231–244

Secrecy factor in futures research—The. *Robert Jungk.* 2.1, 4

Socio-technical evolution—The professions as inhibitors of. *J. Christopher Jones.* 2.1, 24–34

Speculations in hard and soft sciences. Parts 1, 2, 3, 4. *Irving John Good.* 2.1, 70–72. 2.2, 176–178. 2.3, 273–275. 2.4, 380–382

Strategic nuclear balance to 1983—The. *G. Jukes.* 2.4, 363–372

Technological forecasting as applied to transport. *G. Bouladon.* 2.1, 15–23
Technological forecasting, a framework for consideration. *Donald L. Pyke.* 2.4, 327–331
Technological forecasting—Creativity methods in. *Hubert Jaoui.* 2.4, 373–374
Technological forecasting and r and d planning system—An integrated. *Richard N. Foster and Robert H. Rea.* 2.3, 231–244
Technological future—Faith in the. *John Wren-Lewis.* 2.3, 258–262
Total environment management, an approach to the dilemmas of the affluent society. *Henry Winthrop.* 2.4, 332–340
Transport—Technological forecasting as applied to. *G. Bouladon.* 2.1, 15–23
Urban environment—Possible developments in the. *J. K. Page.* 2.3, 215–221
